

## Week 1 Challenge: Ask What You Really Need

---

### Objective

Practice asking clear, meaningful questions

---

### Your Task

1. Ask the **E4C AI KnowledgeBase** a real question related to:

- Your work
- Research
- A community challenge
- An academic project

2. Reflect on the response:

- What problem were you actually trying to solve?
  - Did the response help? Why or why not?
- 

### Focus Skill

Asking clear, structured questions.

Remember: the more context you provide (your role, location, situation), the better the AI can help.

---

### Completion Bonus

Complete this challenge and fill out a [short survey](#) to receive a **Prompting Cheat Sheet** to help you write even better AI prompts.

Survey:

<https://airtable.com/appqUPYnuMe81YLpJ/pagWD27pD2dYYpcwv/form>

*Note: By completing and submitting the survey for all three challenges, you are eligible for a certificate of completion.*
